

We are familiar with our five physical senses, but what if these senses were a key to opening a spiritual sense? What if the sense of sight could lead us to seeing with the eyes of love, and hearing could lead us to listening for the still, small voice within?

This weekend we'll dive into the idea that God is everywhere present, we only need to open our ears and eyes, and learn to use our spiritual senses to get in touch with our own inner mystic!
